REBEL CURRENCY.

The Boston Advertiser which is about the best authority that we know of on financial matters says that the total collapse of the southern currency is one of the most remarkable signs of the time. The unsound condition of that currency has been plain for months. It is a long time since we first had occasion to point out to our readers that while Confederate bonds, the nominal basis, easily sustained themselves at par, the price of gold and of all the necessities of life was steadily advancing to figures which, under ordinary circumstances, would be deemed the signs of an approaching crisis. The rebel press have been ready to charge all these signs, however, to the operations of specie-brokers and speculators, until the proof of a want of popular confidence became too strong to be denied. At the same time they have often detailed with satisfaction one symptom, which they took for a sign of health, but which only confirmed the inference drawn from the other facts in the case. They have reported great and general activity in real estate, high prices and plenty of purchasers, falling to see that what might at another time have indicated prosperity, now only shows a general anxiety to find solid investments for money, which otherwise must be swallowed up by a depreciating currency.

All these delusions of the rebel press, however, have failed as the Union armies have drawn near. Nominal prices have risen higher and higher, and distress among the people has steadily increased to such a point that at another time have indicated prosperity, now only shows a general anxiety to find solid investments for money, which otherwise must be swallowed up by a depreciating currency.

It would seem therefore that the loss from the collapse of the rebel currency, and the various private issues based upon it, must fall upon the mass of the people, and so of course with the greater severity upon the poorer class in the community. The more intelligent and wealthier classes have no doubt protected themselves to some extent, except where they have deliberately risked their property in Confederate bonds. But the humber class have had no choice, but have had to take such currency as was given them, and even since the rapid decline began have had to continue receiving it. Their suffering in such a state of things must be extreme. We do not venture to predict the operation of General Butler's order of suppression, as regards the condition of the poor. It is plain, however, that the change for which that order fixes the date must have come at any rate; and it is not easy to see how it could have been so facilitated as to prevent great hardship to the poorer class, without such, disinterested benevolence on the part of others, in assuming the loss, as is seldom seen.

LOCAL NEWS ITEMS.

THE RHODE ISLAND FORTS.—Recent, and as we think, reliable, private advices from this Regiment of gallant deeds, are of an unpleasant character. To Newport people in particular, must be fact, that an attempt has been made to do, an unjust deed to one of our gallant officers, be very painful.

As our readers are all well aware, Col. Rodman was, in now Brigadier General Rodman, having been nominated by the President as such, and confirmed by the Senate. This leaves a vacancy which is to be filled by the Governor of this State. It is the ardent wish of all the officers with two exceptions, and nearly every man-rank and file—the advice indicate every man, but we wish to be safe in our statements that the vacancy should be filled by the appointment of Lieut. Col. Tew to be Colonel. He is a man of unexceptional moral, well-informed upon military subjects, his bravery has been well established more than once under the fire of the enemy, he has the confidence of the officers with the exceptions named, and one of them has written in the highest terms in his favor, and what is also very significant, he has not only the confidence, but strong affection of the men. The advice indicate that so strongly is the wish of the Regiment for this appointment manifested, that if an officer from the Second Regiment as is intended, should be put over Col. Tew, a stronger feeling of an opposite character will be excited, and manifested, in no agreeable manner to the appointee, or the well wishers of the Regiment.

We might give many quotations of facts showing the unfortunate (to speak charitably) motives at the base of this movement, on the part of those who would disregard the well-known wishes of a gallant Regiment, and by unjust action toward a gallant, conscientious, modest but trustworthy officer, force him with other officers to sheathe their swords, and resign their commissions, and introduce deep dissatisfaction among the brave soldiers of the line.

If Gov. Sprague has an opportunity to hear both sides before he acts, we have no doubt that reckless ambition will be foiled. And we are rejoiced to know that our influential citizens are at work to prevent such a sacrifice of a meritorious officer.

DR. SWEET'S INFALLIBLE LINIMENT.

This article is claimed to be the most powerful, safe and efficacious external remedy known, and from the evidence before us we must believe the claim to be well founded, in which case it will prove a real blessing to the public and we wish it success. We would advise all who have occasion for such an article to give it a trial. The proprietors are certainly fair in their proposition, for they put it upon its merits.

HALLEY, DAVIS & Co. We observe in the Boston papers the removal of this enterprising firm of Piano manufacturers from No. 409 to No. 272 Washington Street Boston. For many years this firm have manufactured the finest toned and best instruments in the country, as the premiums and medals which have been awarded to them show. They have lately turned out an entirely new scale piano which is thought by all who have tried it to be the most superior square instrument yet produced, possessing as it does the power and volume of a Grand Piano. One of these instruments can be seen at the residence of the Editor of this paper, who will cheerfully show it to any one wishing to get an idea of its merits.

THANKS TO SOME ONE.—We are indebted to a member of Congress, who writes so intelligently that we cannot make out his name, for the late speech of Hon. John B.ingham of Ohio on the power and duty of Congress to provide for the common defense, and suppression of the Rebellion.

PERSONAL.—Lieut. Wm. E. Holloway of the Revenue Service arrived in this city yesterday on leave of absence, after four months of active service. Lt. H. is an able officer and is highly appreciated by the Department.

CONGRESSIONAL.—We are indebted to Hon. Charles B. Segwick of New York for a copy of his late speech on "Emancipation."

IMPORTANT.—We call attention to the great reduction rate of valuable Furniture, &c., at the Atlantic House, which will commence on Monday next.

Deaths in Rhode Island Regiments under Burnside.—The following is a full and correct list of the deaths by disease in the Rhode Island regiments under General Burnside during the month of April: Fourth Rhode Island—Robert Williams, Co. C, typhoid fever, April 18; Wm. S. Hopkins, Co. H, typhoid fever, April 12; Chas. H. W. Biggs, Co. I, typhoid fever, April 24; John W. Chase, Co. C, typhoid fever, April 28; Jeremiah Horton, Co. K, typhoid fever, April 29; Cyrus W. Frisbie, Co. F, typhoid fever, April 3; Corp. Wm. S. Denham, Co. C, contin. con. fever, April 18; Daniel H. Cameron, Co. C, gunshot wound, April 8.

Fifth Rhode Island.—Sergeant Lorenzo P. Ludwig, Co. B, typhoid fever, April 24; Geo. B. Dean, Co. C, typhoid fever, April 15.

Disturbed at the Prospect.—The Richmond papers fight strenuously against the idea of evacuating the city. The Examiner declares that the city would not be so heavy a blow to the rebel cause as evacuation. The latter, it does not hesitate to say, would be followed by revolution as one of its consequences.

Those consequences are not only military but civil—national. They are demoralization and disorganization, out of which the army and the country will endeavor to save itself by a new creation of leaders and rulers; adding thus to all our calamities and difficulties, that of revolution.

The Examiner then declares that there must be a change in the management of the war on their side:

"Now, what have been the results of the campaign in Virginia? The war has lasted a year. Many battles have been fought. In every one of the battles fought in Virginia, with the exception of Cheat Mountain and Roanoke, the Confederate soldiers have had the advantage; yet the Confederate armies have been always in retreat, never in advance, abandoning position after position, according to rule and square, till now the State is nearly all swallowed by the enemy, its fields desolated, farm-houses sacked, the slaves wandering in troops, the people a nation in exile, and the capital still safe only on the supposition that the precedent of the past shall be abandoned. It is time to put in protest against precedent, and to give solid warning to all those, if any there be, who propose to continue the campaign in Virginia as it has been commenced."

This is followed up by a pretty intelligible hint that the rebel leaders are out-generalled; since they cannot make McClellan fight by "offering battle," except when he chooses.

The rebel papers affect an extreme contempt for Gen. McClellan's engineering operations. The Richmond Dispatch of May 19, however, pays the following tribute to that method of procedure:

"The plan of the enemy has been fully unfolded by his Press, as by his demonstration at Yorktown, immediately upon his advance there. He will easily take this city by encirclement, with the protection of parallel lines. He will throw up dirt as soon as he reaches the proper point, and he will try to reach the heart of the city with the spade. If he is allowed to proceed in this way, he will meet assuredly here. His advance is not far from Richmond, and, if not molested, we shall see that he is flinging up dirt. But we do not apprehend that he will be allowed to go on undisturbed in this kind of strategy. He will never get to Richmond with that economy of bloodshed and life imagined by McClellan."

Interesting from Charleston.—The Fall River News, says a gentleman of our acquaintance, who has a daughter residing in Charleston, S. C., informs us that he has recently received a letter from her, which was written about the 1st of May. She gives rather a gloomy account of affairs in the Palmetto city, from which we conclude that a decided change had taken place in the political atmosphere of that fire-eating locality. Provisions and goods of many descriptions are scarce and very high priced, as follows:—Tea from \$8 to \$10 per lb.; coffee from 50 cents to \$1 per yard; beef 50 cents per pound, and other articles in proportion. The writer, referring to the expected capture of the city by the Union army, expresses the "hope that what the Yankees are going to do, they will do quickly," and states that she has "heard several of the citizens declare that they would rather die than live another year as they had done." The blockade is very strict, though occasionally a vessel slips out, which event the Charlestonians duly improve in sending a mail to the "outside barbarians." Thousands of the citizens are longing for a return of the good old times, when they were happy and prosperous under the protecting care of a benign government, but dare not express their feelings openly.

The writer of the letter is a highly respectable lady of our acquaintance, and is the wife of a gentleman who has resided in Charleston for a number of years. Her statements may be strictly relied on.

What a Virginia Contraband can Do.—A lady of this city, desiring to procure a "help," made application at the headquarters of the "contrabands" on Capitol Hill, when the following colloquy ensued between herself and a female contraband who had escaped from "service" in Virginia:

Lady.—Well, Dinah, you say you want a place. What can you do? Can you cook? Contraband.—No, m'm; mammy, she always cooked.

Lady.—Are you a good chambermaid? Contraband.—Sister Sally, she always did the chambers.

Lady.—Can you wait in the dining room and attend the door? Contraband.—Lal, no, m'm; Jim, that was his work!

Lady.—Can you wash and iron? Contraband.—Well you see, m'm, Aunt Becky, she always washed!

Lady.—Can you sew? Contraband.—Charity, she always sew'd.

Lady.—Then what in the world did you do? Contraband.—Why, I always kep' the flies off m' m'!—National Intelligencer.

The time gun at Edinburgh Castle has now continued for nearly a year regularly to announce the precise instant of one o'clock Greenwich time, and it may now be regarded as a completely successful experiment. The gun is discharged by a simple piece of mechanism attached to a clock at the battery. This clock is regulated and controlled by the clock of the Royal Observatory on the Caltonhill, which is carefully adjusted to Greenwich time by astronomical observations made from hour to hour. The two clocks are kept in rapport so as to speak by means of an electric wire suspended in one strain over the valley between the Old and New Town, the distance from the Castle to the Caltonhill being about three quarters of a mile.

WAR NEWS.

FROM MCCLELLAN'S ARMY.

RETREAT OF THE REBELS.

HEADQUARTERS ARMY OF THE POTOMAC, June 2, 1862.

The rebel officers were unable to rally their troops this morning. They retreated toward Richmond. Our men have moved forward to Fair Oak, five miles from the city. Jeff Davis and Gov. Letcher were both at the fight of yesterday. The dead are now being gathered and buried.

HEADQUARTERS, Monday, 9 P. M.

Gen. Hooker made a reconnaissance to-day on the Williamsburg turnpike to within four miles of Richmond, without meeting the enemy in force. Their pickets kept in sight, but retreated on his approach. Every one feels sanguine of the fall of the rebel capital when our troops advance for an engagement.

The fight of Saturday and Sunday, seals the fate of that city. They threw the main body of the army, composed of their best troops, on our left wing, with a view of crushing it. They were defeated after two days' hard fighting and forced to retreat.

Among the wounded are Col. Hunt, 82d New York, in leg; Lieut. Col. Perry, 86th Pennsylvania, in leg; Lieut. Col. Morris, 101st Pennsylvania, in leg; Col. Van Wyck, 10th Legion, slightly, in leg.

All the wounded and many of the dead have been taken to White House by railroad it is impossible to obtain a list of their names.

FORCED MARCH OF GEN. FREMONT.

HE ATTACKS AND ROUTS JACKSON'S FORCE NEAR STRASBURG.

Fremont's Headquarters, near Strasburg, June 1.—General Fremont left Sunday, a strong column left Franklin last Sunday, and by rapid forced marches has crossed the Shenandoah mountain ranges, marching nearly 100 miles over difficult roads, with little means of transportation and no supplies in the country. This morning, five miles from Strasburg he overtook Gen. Jackson in full retreat with his whole force on the road from Winchester to Strasburg.

Colonel Cluseret, commanding the advance brigade, came upon the enemy strongly posted with artillery, which opened as soon as the head of his column approached. General Fremont rapidly brought his main column up and formed in line of battle. General Jackson declined to fight, and while holding Cluseret in check, with a portion of his troops, withdrew his main forces and continued his retreat.

In the skirmish, five of the 8th Virginia and two of the 60th Ohio were wounded. The enemy's loss is unknown. Twenty-five prisoners were taken by our cavalry.

Lieut. Colonel Downey, of the 3d Regiment, killed three Rebels, and in a party of Ashby's cavalry through Wardensville, killing two and wounding three.

NEWS SUMMARY.

—Accounts from almost the entire West respecting the growing crops, continue very promising.

—The Washington Municipal election takes place today. Mayor Wallace will be elected.

—Jeff Davis was born in that part of Christian County, which now forms Todd County Kentucky, 3d June, 1808, and is therefore 54 years old.

—The New York Times says that Gen. Scott the other day, in a single felicitous word, expressed most forcibly what he thinks of the present aspect of the rebellion. "The rebellion," said the veteran soldier, speaking of the evacuation of Corinth and rebel demoralization, "the rebellion is molting."

—The U. S. troops in Kansas, some 20,000 in number, were lately ordered to New Mexico. They started, but the order was speedily countermanded; and the troops sent to Corinth. A correspondent says there is no use in a Kansas Military Department and all the troops who remain there—some 7,000—ought to be put in active service.

—The lens in the eastern part of England have been overflooded. By the bursting of a sluice near Lynn the sea rushed in over the country, leaving 17,000 acres under water the first tide. Men and animals were driven from their dwellings, and produce was floating about or being deroyed. It was feared that the total loss would amount to more than one million sterling.

—Referring to the cotton burning at New Orleans the French Journal des Debats says:—In France we have journals which make it a business to excite the suffering populations of Europe against the North, by trying to throw on it the responsibility of the lack of work. But, workmen of Lancashire and Lyons! if you are out of work, you will know hereafter who to hold to account for your sufferings; you will know on which side are the cotton-burners!

—The St. Louis Democrat says:—"Let-ter have been received in this city from the Hon. John W. Noell, member of Congress from the Seventh District in this State, taking strong grounds in favor of Emancipation as a State policy. This position viewed in connection with his recent speech in the House of Representatives upon the confessions bill, shows very plainly the true for one will take no part or lot with the Missouri Republican in the opposition against that national adjunction."

—A fearful volcanic eruption has taken place in the 3d volcano Island, on the 28th of December last, after an interval of 82 years. Clouds of ashes and sand were blown at the island of Ternate, about 21 miles distant, to such a degree that lamps had to be lighted at noon. This lasted all through the two following days, when, luckily, a heavy rain set in, when prevented the roofs of the houses from being crushed. The inhabitants of Makia made their escape in boats; many, however, were killed by red hot stones, that fell in all directions. The island is totally devastated, and, according to the newest accounts, covered with ashes from six to seven feet deep.

—Henry Ward Beecher, on Sunday last denounced the course of Gov. Stanley, of North Carolina, in ordering the instruction of the contrabands by Northern missionaries to teach them to read, as in contravention of his laws. "If," said Mr. Beecher, "the Government at Washington sanctions that decision of Gov. Stanley, the people have been deceived. If the people of North Carolina had elected a Governor, then there might be some excuse for enforcing this law; but if the Government had the right and the power to force upon the people of that state a Governor, that Government had equally a right to order that the law referred to should not be enforced, and he believed it would be done." On the other hand, the Governor only proposes to carry out the law of North Carolina precisely as they were administered before the breaking out of this unhappy affair. These were his instructions from Washington.

Special Notices.

TO HORSE OWNERS.

DR. SWEET'S INFALLIBLE LINIMENT FOR HORSES is carried by sea, in and all cases of Lameness, arising from Sprains, Bruises or Wrenching, or from cold, or from any other cause, it will be easily prevented and cured in their incipient stages, and confirmed cases are healed in a few days. No case of the possibility of a permanent cure. No case of the kind, however, is so desperate or hopeless, but it may be alleviated by this Liniment, and its faithful application will always remove the Lameness, and enable the horse to travel with comparative ease.

Every horse owner should have this remedy at hand, for its timely use at the first appearance of Lameness will effectively prevent those formidable diseases mentioned, to which all horses are liable, and which render so many otherwise valuable horses nearly worthless.

GREAT INDIAN REMEDY FOR FEMALES.
This celebrated Female Medicine, possessing virtues unknown of anything else of the kind, and proving effective in all cases, have failed, is designed for both married and single ladies, and is the very best thing known for the purpose; and will bring on the monthly sickness in cases of obstruction, from any cause, and after all other remedies of the kind have been tried in vain.

OVER 2000 BOTTLES.
have now been sold, and without the least injury to health in any case. It is put up in bottles of three different strengths, with full directions for using, and sent by express, closely sealed, to all parts of the country.
Purposes - Full strength, \$1.00; half strength, 50 cents; quarter strength, 25 cents. All orders for quantities of 100 bottles, or more, will be sent by express, and at a special rate. Also that it is warranted as represented in every respect, or the price will be refunded.

Dr. Mattison's Diuretic Compound.
For Acute and Chronic Gonorrhea.
This new remedy contains neither Balsam Capivi, Spirit of Sassafras, Turpentine, or any other noxious drugs, but is an elegant vegetable liquid, pleasant to the taste and smell, grateful to the stomach, cooling, cleansing, and healing in all cases of inflammation of the urinary passages. You, therefore, who have been swallowing down Balsam Capivi, either in capsules or mixture, for months, in succession, until your face and disordered stomach, your breath and clothes are filled with its vile odor; throw away the disgusting mixture, and send for a bottle of this new medicine, which will not only cure you, but will save you the time and money of a succession of other remedies. One bottle, which costs a few cents, will effect a perfect cure. Price, 50 cents.

Dr. Mattison's Anti-Syphilitic Syrup.
For Constitutional Syphilis.
No remedy ever discovered has done what has been achieved by this. Under its use every form of constitutional syphilis is speedily cured, and is a safe and reliable remedy, and health and strength are permanently restored.
It was this remedy that cured in a few weeks a gentleman from the West, who had been suffering from the disease for many years, and who had been treated by all the most eminent physicians in Baltimore, Philadelphia and New York for five years. One bottle, which costs a few cents, will effect a perfect cure. Price, 50 cents.

Dr. Mattison's Nerve Invigorator.
For Nervous Debility, Loss of Power, Impotence, Confusion of Thought, Loss of Memory, Irritability of Temper, Gloom, Depression of Spirits, and all the symptoms of a weak and debilitated system.
This new remedy for that fearful train of mental and physical evils arising from nervous debility, and which is the cause of so much suffering, is a most powerful, strengthening, and invigorating medicine to be found in the whole Vegetable Kingdom, which, in combination, form the most perfect and reliable remedy ever discovered. It has now been sent to nearly every State in the Union, relieving the untold sufferings of hundreds who have never seen the benefit of restoring them to comparative health, strength and happiness. Price, 50 cents.

A WORD OF CAUTION.
It has been estimated that over Two Hundred Thousand Dollars are paid annually in New England for swindling and imposture. It is a sad sight to see those who pay out their money for a worthless remedy, and who are left in a worse state than when they first began. All this comes from trusting, without inquiry, to men who are devoid of honor, character or skill, and who are only interested in their own gain. Be careful, therefore, in every respect, or the price will be refunded.

Dr. Mattison's Remedial Institute.
FOR SPECIFIC DISEASES. No. 28 Union Street, Providence, R. I., and sent by express, secure from observation, to all parts of the United States.
